2024 SOCIAL REPORT

This **3rd edition** of the WFTC Social Report reflects a collective effort from continental federations and committees to showcase the global impact of TCs. The report underscores **WFTC's inclusive vision, holistic approach, and professional reliability**. Data collection involved validated responses from regional networks via multilingual online surveys, ensuring accuracy.
The report highlights how TCs work daily to improve the lives of people affected by addiction.
It emphasizes shared ethics, cross-disciplinary collaboration, and an expanding international presence, representing hundreds of organizations across five continents.

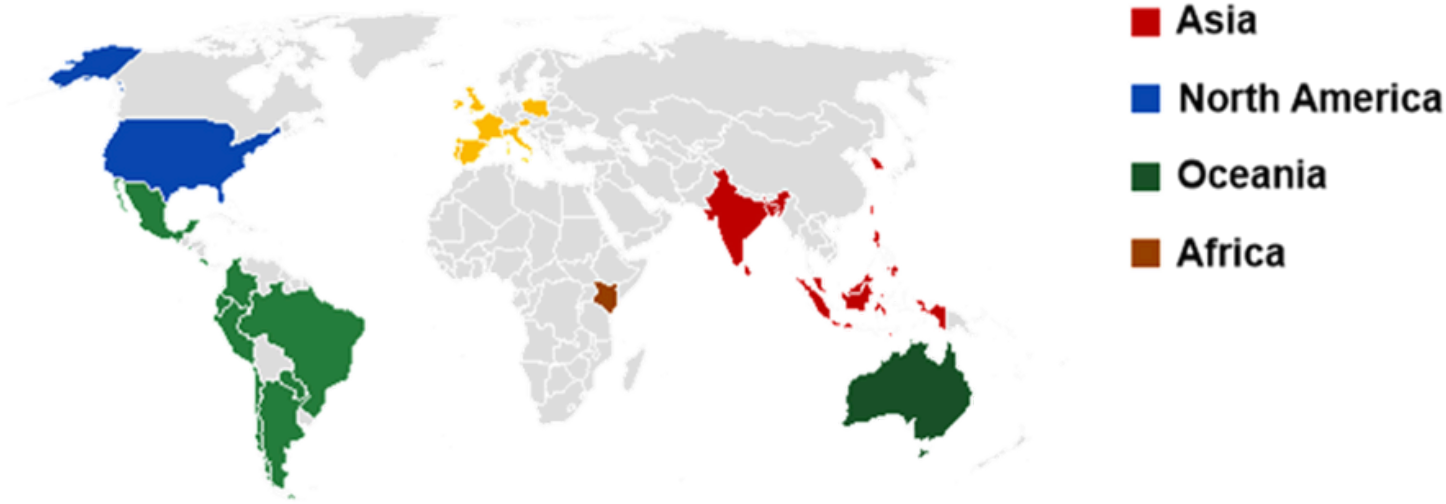
WORLDWIDE REACH

The 2024 WFTC Social Report compiled data from **364 organizations** across **32 countries** representing **6 global regions.**

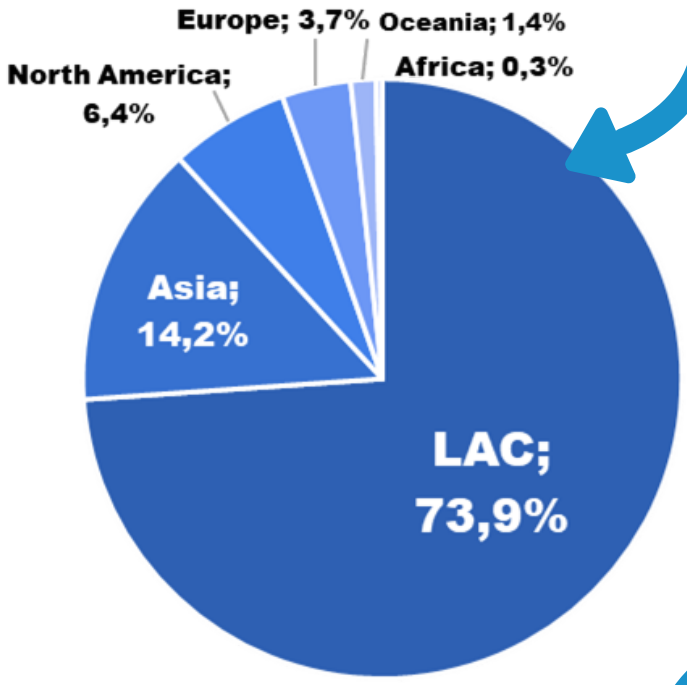


OUR GLOBAL IMPACT

200,000 ASSISTED PEOPLE

1,500,000 REACHED PEOPLE

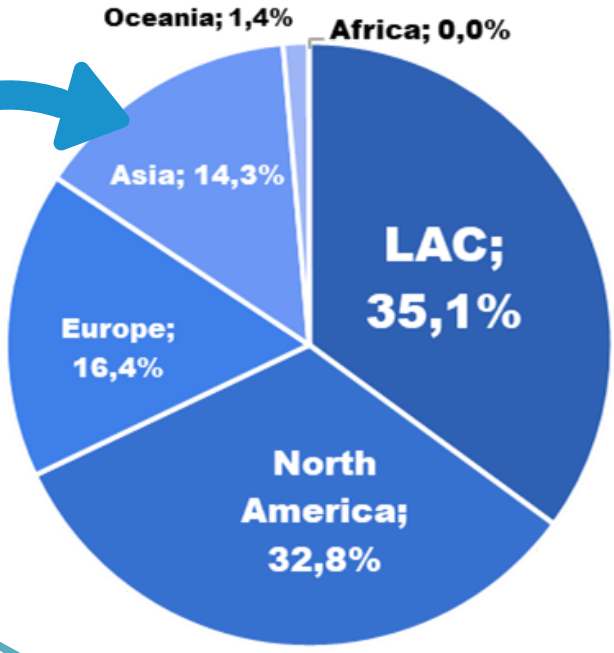
TOTAL TCS BY REGION



LAC had ¾ of the global sample, with 218 TCs.

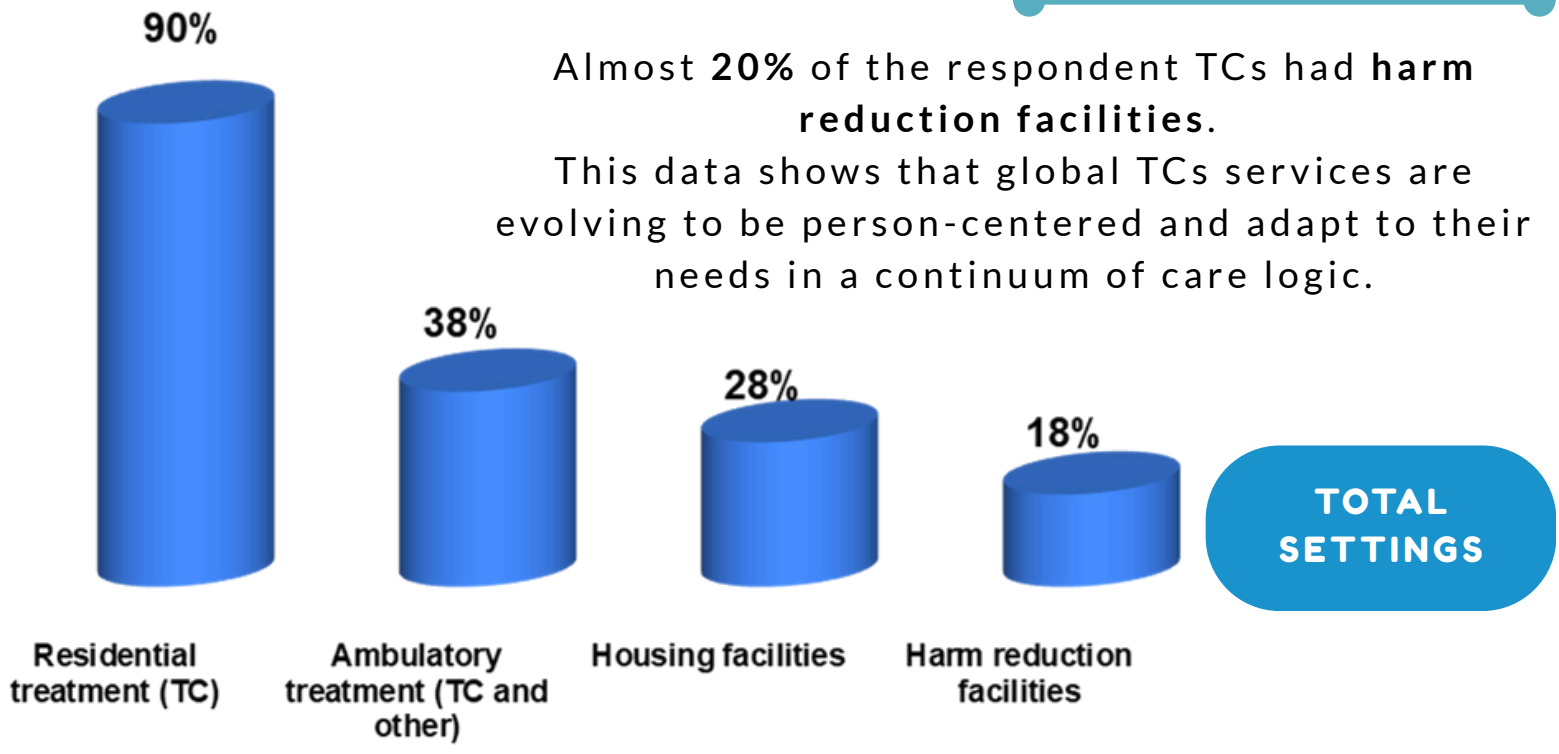
LAC and North America were the regions with most assisted people.

TOTAL ASSISTED PEOPLE BY REGION



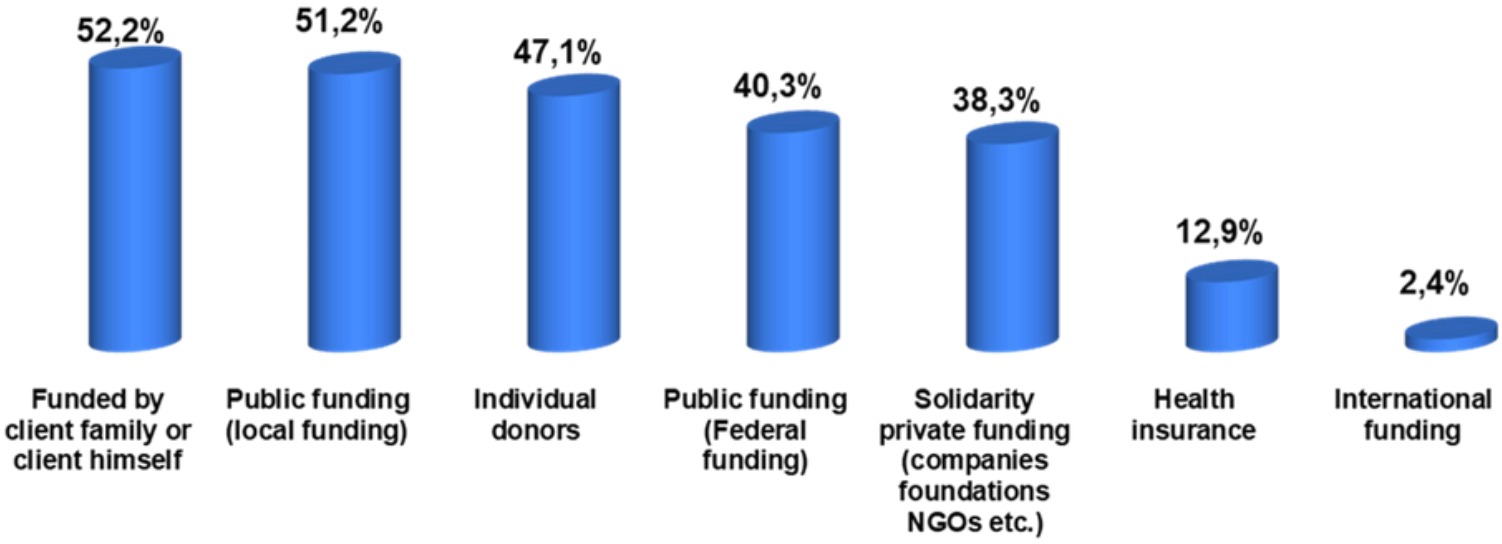
Almost **20%** of the respondent TCs had **harm reduction facilities**.
This data shows that global TCs services are evolving to be person-centered and adapt to their needs in a continuum of care logic.

TOTAL SETTINGS



More than the **half** of the TCs had only **one or two sources of funding**, only **7%** had **5-6** and **no one** had all the **seven**.

It means that most of the TCs had few sources of funding to carry on their projects.



SOURCES OF FUNDING

RELIGIOSITY IN TCS

Almost the **half** (46%) of TCs reported having **non-religious programs**, and he **majority** of the assisted people (57%) was **treated** in **non-religious programs.**

HIGH STANDARD WORK

80%

OF THE TCS HAD 5 OR MORE DIFFERENT PROFESSIONALS IN THEIR STAFFS.

Most common professionals were psychologists, social workers, and counselors (recovered addicts).

86%

OF THE PEOPLE WERE TREATED IN TCS WITH 5 OR MORE DIFFERENT PROFESSIONALS IN THEIR STAFFS.
